## Symbols of the Colony.

### The First Colony Symbol

The symbol is designed in a protective figure.  
In the center of wheat oatmeal - the main growing branch, the segmentation (balal crops)  
Cow - Branch #2 - Milk  
The citrus tree - Branch No. 3 - Growing the citrus  
Grape cluster - Branch #4 - Vine for wine and food grapes  
Bee against the background of the honeycomb – the last branch of importance – the honey creature  
The Year of the Foundation 1883 and not as it appears

### The First Colony - Creating a stained glass - Avraham Rofman's contribution

The stained glass is placed at the entrance to the colony on Rothschild Street  
In the sign placed next to the stained glass, Avraham wrote:

'ומתוך האור וטוב לעיניים לראות את השמש' (קהלת, י"א, ז).  
ח"י הפגישו אותי לפני שנים ספורות עם המקום הנפלא הזה, מזכרת בטיה,  
והיתה זו עבורי נקודת התחלה רעננה.  
אור השמש במקום זה נעם לי והוסיף שמחה לחיי.  
בסמל זה, מתנתי למושב, אלמנטים של חלב ודבש, אדמה ומגן.  
יש בהם טעם וריח, ראות ומישוש.  
קירי האור המתקוות מאירות את המרכיבים הללו כשם שתהליך היצירה האיר את פני.  
לכבוד הוא לי.  
אברהם רופמן  
אוקטובר 2008

## The Colony Symbol Today

- .The order of importance has changed over the years and the symbol has changed with it
- .In the center of wheat oatmeal - the main growing branch, the segmentation (balal crops)
- .The synagogue - from the buildings that symbolize the colony
- .The citrus tree - growing citrus
- .Grape cluster - vine for wine and food grapes
- .Square and houses - the development of the colony

## The symbol of tourism

This has been decided on the development and leverage of tourism while maintaining the heart of the colony

In 2007 with the development of the pedestrian street Rothschild, it was decided to create the tourist logo

## Sergeant 130 per colony
